

Pineapple Turkey

Cut two pieces out of green or brown felt. Sew together with brown or gold rickrack in between. Turn right side out and stuff with a little fiber fill. Add eyes (either drawn, glued white and black felt or glued plastic eyes). Sew the red "nose" on to the outside.

Purchase a pineapple with a beautiful, full bunch of leaves. Attach your turkey head with two straight pins and ... ta da! A delicious turkey centerpiece that's only one point per cup!
